Retainer Cases
Cephalometric Tracing Kit

Molded Retainer Cases
• High-impact polypropylene
• Hinged sections
• Latchable
• Vented, to reduce odor formation

Assortment
One each, all colors except black and purple
450-121 10/pk
10 each, all colors except hot red and hot yellow
450-122 100/pk
Sampler - 10 each, all colors except black and purple
450-120 100/pk
Standard - 20 each, ivory, yellow, red, green, blue
450-010 100/pk
Neon - 20 each, hot colors
450-110 100/pk

Rectangular Retainer Boxes
Constructed from opaque plastic, upper and lower sections are hinged and latchable. Compact size, yet large enough to accommodate two retainers.
452-001 100/pk

Cephalometric Tracing Kit
Contains all materials needed for making cephalometric tracings and measurements. Kit contains 100 sheets of 8" x 10" (20.3 cm x 25.4 cm) acetate tracing film. Also included are one each black, blue, red, and green pencil, pencil-sharpener, eraser, tooth tracing template with metric scale, and combination triangle/protractor/metric scale.
701-202

Tracing Film
.0025" (.0634 mm) thick
• Resists tearing
• Easy to see details
• Matte finish faces up for easy marking
8" x 10" (20.3 cm x 25.4 cm)
701-204 Pad of 100

Pencils
10/pk
701-114 Green
701-115 Blue
701-116 Red
701-117 Black

Film Eraser
701-103 6/pk

Masking Tape
701-301

Triangle/protractor/metric scale
701-401

Tooth Tracing Steiner Template
701-603

Baum Cephalometric Protractor
Made from clear plastic and features 180° standard protractor with pivoting measurement hairline and straight edge bilateral metric scale calibrated in millimeters from center-zero index to 140 mm, with numerical indicia marking each centimeter.
701-402

“Systemized Orthodontic Treatment Mechanics”  
Systemized Orthodontic Treatment Mechanics  
from Doctors Richard McLaughlin, John Bennett and Hugo Trevisi, will be of great interest to orthodontists worldwide, and in particular, to MBT™ Versatile+ Appliance System users.

Written by orthodontists, for orthodontists, this book provides the clinical orthodontist with an accessible and practical guide to the MBT System treatment philosophy. It brings together the four components which make up modern treatment mechanics: Bracket Design, Bracket Positioning, Archwire Selection and Force Levels.

014-436 (English)  
014-450 (Spanish)

Chapters Include:
1. A brief history and overview of treatment mechanics
2. Appliance specifications: variations and versatility
3. Bracket positioning and case set-up
4. Arch form
5. Anchorage control during tooth leveling and aligning
6. Arch leveling and overbite control
7. An overview of Class II treatment
8. An overview of Class III treatment
9. Space closure and sliding mechanics
10. Finishing the case
11. Appliance removal and retention protocols

Orthodontic Textbook on SmartClip™ Appliances
A comprehensive text has been written by Dr. Trevisi entitled SmartClip™ Self-Ligating Appliance System — Concept and Biomechanics. In a Foreword to the book, Dr. Richard McLaughlin states: “This impressive text is a comprehensive presentation of his [Dr. Trevisi’s] work and his successful integration of the MBT [Versatile+ Appliance] System approach with self-ligating mechanics. The results are excellent.”

Extensively illustrated including case presentations, the more than 250 page text includes an historical overview of orthodontic fixed appliances, discussion of the integration of the SmartClip Appliance System and the MBT Versatile+ Appliance System, Customized Bracket Positioning, Sliding Mechanics and Occlusion in Orthodontics.

014-508 (English)
Supplies and Equipment

Banding Accessories

Arch Symmetry Aids

Unitek™ Extended-Time Cold Slab
For mixing banding cement using the cold-slab technique. This unique, “Blue-ice” mixing slab, cooled overnight in a refrigerator, stays cold for approximately six hours.
603-100

Cold-Slab Replacement Mixing Surface
Restores a worn or damaged surface on a 603-100 Extended-Time Cold Slab. Easy to install.
603-101

Cement Guard
Serves a three-fold purpose:
• Coat band attachments prior to cementation to prevent clogging of bracket slots, tie wings, tube openings, and lingual attachments
• After banding patient, coat appliance to prevent tissue irritation
• As a “sticky wax” position attachments on bands before welding
Cement Guard is peppermint-flavored. Requires no heat. Packaged in adjustable, lipstick-type tube.
704-007 3/pk

Wax-Pak™
For coating appliances to prevent tissue irritation. Tasteless. Packaged conveniently for the patient to carry. Four sticks per pack.
603-063 100 packs

Special White Utility Wax
Wax stick measuring 6 in. (153 mm) long.
603-062 22/pk

Diagnosis OrthoForm™ Templates
Clear templates for overlay on patient model.
701-723 (3) in package

OrthoForm™ I Symmetry Grid
• Maxillary and mandibular
• Marked midline
• Clear plastic
701-703

OrthoForm™ II Symmetry Grid
• Maxillary and mandibular
• Marked midline
• Clear plastic
701-704

Archform Templates
OrthoForm I & II
701-705
Standard & Reverse Curve
701-706

Arch-Marking Pencil Kit
• Wax-type pencil, 6 per box
• Wet-dry marker
• Includes sharpener
603-026

Arch Practice Guide
• 6 arches: 3 maxillary and 3 mandibular
• Marked midline
• Clear plastic
701-702

Operatory OrthoForm Templates
White templates for chairside use.
701-724 (3) in package

MBT™ System Bracket Positioning Guide

Wax-Form Arches and Teeth
Permanent Dentition Teeth

Premolded Wax-Form Arches, Set
Wax-form arches fit snugly into preheated 610-200 typodont bases. Sets include one each upper and lower arch. (Metal or epoxy teeth are not included.)

610-306  Ideal
610-309  Class I
610-307  Class II, Division I
610-308  Class II, Division II
610-310  Class III

Metal Teeth
Set of 14 maxillary and 14 mandibular chrome-plated cast metal teeth for use in Unitek™ Premolded Wax-form Arches.

Unitek™ Seamless Bands available with prewelded attachments can be easily fitted on these teeth.

611-500 (Set)

Epoxy Teeth
Permanent dentition. For direct bonding.

611-501 (Set)
